

## Farm Home Burnt

Fire Destroys Fine Farm Residence and Contents 9 Miles S.W.

The home of Mr. J. R. Massey, a farmer living nine miles south west of Chinook, was completely destroyed by fire on Wednesday night of last week.

It appears that Mr. Massey was visiting one of the neighbors, about three quarters of a mile distant, and was about to return home when he noticed a fire in the direction of his own farm. He immediately rode over and found the flames had so enveloped the building as to make it impossible to save any of the contents.

Mr. Massey's house was valued at three thousand dollars and was one of the best farm homes in the district.

Mr. Massey cannot account for the origin of the fire as the furnace had not been very much in use.

Geo. Weber, of Elmira, Ont., has a hen that is capable of most extraordinary performances. For the last three weeks in the old year the hen laid two eggs a day every other day. It outdid this record one day last week when it laid three normal sized eggs within a period of ten hours.

The annual convention of the U. F. A. will open at Calgary on Tuesday of next week.

## The Land Titles Act. MORTGAGE SALE OF VALUABLE FARM PROPERTY

PURSUANT to the directions of the Registrar and by virtue of the Powers of Sale provided by "The Land Titles Act," under a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction at the Acadia Hotel in the Village of Chinook in the Province of Alberta, on Saturday, the 4th day of February, 1922, at the hour of two o'clock in the afternoon, the following property namely:

The East Half of Section Nine (9) in Township Twenty-seven (27) and Range Eight (8) West of the Fourth Meridian in Alberta, reserving unto the Crown all mines and minerals.

Terms of sale to be 20 per cent cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserved bid and free from all encumbrances, save taxes for the year 1922.

The vendor is informed that the above property is situated about 13 miles South West from the Village of Chinook on the C. N. R. and includes a frame shingle roofed stable 14 feet by 24 feet and is fenced with barbed wire and that about 150 acres have been brought under cultivation of which about 40 acres were in crop in 1921.

For further particulars and conditions of sale, apply to L. E. Ormond, Solicitor, Chinook, Alberta.

DATED at Calgary in the Province of Alberta, this 23rd day of December A.D. 1921.

Approved  
W. Forbes,  
Registrar.

## Will Honor Bobby Burns

The 25th of January being Burns' anniversary, the Chinook District Literary Society are considering making their entertainment of January 27th a "Burn's night." Scotch songs and addresses on the great Scottish poet will be included in the entertainment. It would be appreciated if any one willing to help out on the programme would get in touch with some member of the committee.

## Youngstown Fails to Defeat Chinook

Hockey Game at Chinook Attracts Many and Ends in Draw

The hockey game played here on Friday afternoon last, between Youngstown and Chinook, resulted in a tie, each side scoring two goals.

The game attracted quite a crowd and every point of vantage was taken by interested spectators who keenly observed every important play. The ice was in excellent condition and the game was fast throughout.

In the first period neither side scored although the goal keeper for the visitors found it necessary to stop several good shots; in fact, if it had not been for the clever work done by the Youngstown goal keeper the score would have been as one-sided as a new moon.

The first goal was gotten in the second period when Martin scored for Youngstown. Forset soon made the score even when he sent the puck past the wily player in the Youngstown goal and scored for the home team. Then Schofield, for the visitors, fixed the score so that it was 2-1 at the end of the second period.

In the early part of the third period Chinook got another goal when Lee, by a very clever shot, sent the "rubber" into the visitors' net. There was no more scoring after this and the game ended in a draw. It was suggested, however, that there be a play-off but the visitors felt too tired to continue and so the matter was not pressed.

The line-up was as follows:

Youngstown	goal	Chinook
Sovey	goal	Foster
Martin	defence	Forest
McColl	defence	Proctor
Curtis	r. wing	Lee
Orton	centre	Jones
Schofield	l. wing	Key

## Tenders Wanted

CHINOOK CONSOL. S. DIST.

Applications for the positions of Secretary-Treasurer and of Janitor, for 1922, for the Chinook Consolidated S. D., will be received by the present secretary or by members of the Board on or before noon of Saturday, Jan. 28th.

Signed on behalf of the Board,  
LORNE PROUDFOOT,  
Secretary-Treasurer.

They are all on the same rope.

—Morris for George Matthew Adams Service

## Mr. Smith Severs Connection With Advance

The Advance readers will regret to learn that Mr. Robert Smith has severed his connection with this paper of which he has been the editor and publisher for the past fourteen months.

Mr. Smith never failed to make The Advance interesting and, in addition to his meritorious newspaper work, he has always been ready and willing to give valuable assistance to whatever has been suggested for the good of the community.

Mr. Smith has not yet made definite plans for the future but

## Mr. Hewitt New Chairman of School Board

At the annual meeting of the School Board held Saturday M. J. Hewitt and O. Knight were elected trustees, former as chairman.

he will likely locate in a field that is far more extensive than even Chinook promises to be. Country folk and townspeople alike will join with the new management of The Advance in wishing Mr. and Mrs. Smith good health, every success and a host of sincere friends as they branch out into a larger field of usefulness.

## Horse Shoes For Luck

are vogue at Weddings and over racing stable doors, but will not help to build up your sales volume.

Business success or "luck," as jealous rivals call it, is the product of wise planning, a square deal policy of service and ADVERTISING.

ADVERTISING keeps the public informed of your business. Such knowledge breeds confidence and Goodwill. An expenditure in advertising will prove an interest-bearing investment.

Get the facts from "The Chinook Advance."

## A WORD TO THE WISE

A list of advertisers from "The Advance" in your handbag or pocket is the best "Horse Shoe" you can carry for "luck" in buying. An advertisement is an invitation.

## Shop Where You Are Invited To Shop

Head Office, Toronto, Canada

## Must Take a Complete Rest

The friends of Kenneth Britton, of the Clemens school district, will regret to learn that he is again suffering from the effects of an old accident. He is under treatment by Dr. Chandler and has been advised to take a complete rest for five or six weeks.

Mr. and Mrs. W. W. Isbister left on Monday for Peterboro, Ont., where they will visit for a while with Mrs. Isbister's mother.

## Chinook Curlers Retain the Beaver Cup

The Best Players from Youngstown Fail to Win Coveted Silverware

On Friday evening last two rinks came down from Youngstown to play for the coveted trophy, the Beaver cup, and failed to win.

There was quite a large number of spectators to witness this game owing to the fact that Chinook curlers have held the cup since the early part of last season and have yet to meet their "Waterloo."

Although the Youngstown curlers put up a hard fight yet the local rinks proved too much for the visitors and the game resulted in a win for Chinook by a score of 25-16.

The rinks were as follows:

Chinook	Youngstown
Gingles	Denholme
H. Smith	Schofield
Dunn	Rennie—skip 14
Butts	Lamb—skip 9
Jones	Gibbs
McLeod	Cross
Milligan—skip 11	Black
Hart—skip 7	
25	16

## Mutt and Jeff Cup Games

The Mutt and Jeff cup changed hands three times during the past week as follows:

Dunn to Demon, Demon to Chapman and Chapman to Rennie. Rennie, the present holder, on being presented with the challenge, printed below, scratched his head and remarked, "I'll plug a rink and beat that guy." The challenge, which is considered a document sparkling with unusual brilliancy, is as follows:

"Chinook, Jan. 11, 1922,  
"The Secretary, Chinook Curling Club.

"Dear Sir,—I, the undersigned, being of sound mind and of my own free will and accord, hereby challenge James Irish Rennie, present holder of the "Mutt and Jeff" cup. Time and place to suit holder. Brooms for two and coffee—weak, very weak coffee,—for one.

"Witness my right hand and left seal the year and date first above written."

This challenge is signed by one of the best known curlers in town; in fact, he is said to be the man who put the curl in curling. An exciting game is expected.

## News in Brief Form

Local Items and Happenings of General Interest  
—Mostly Personals

Mr. and Mrs. William Forgie have returned to Drumheller.

Mrs. G. Oxley and baby, from Innisfail, are visiting her sister, Mrs. J. R. Black.

If you wish to hear a hard-luck story just ask a man for the money he owes you.

Miss Sarah Fowler, of Calgary, is a guest at the home of her sister Mrs. C. W. Rideout.

Miss Dorothy Smith, who had been visiting at the Noble farm during the holidays, has returned to town.

Mrs. M. Callaghan has returned to her home in this district after visiting for a while with friends at Calgary.

Considerable interest is being taken locally in the forthcoming wrestling match between Gus Adams and Jack Morris.

On Thursday of last week Mr. C. W. Rideout received the sad news of the death of his brother, Arlie Rideout, of Hartland, N. B.

George S. Johnson writes from Opportunity, Wash., where he is visiting his family, and says that he is interested in the Chinook events.

The dance given by the hockey club on Friday night was a social success and the club realized quite a few dollars to help out the treasury.

French delegates to Disarmament Conference seem ready to give up everything except a big navy, a large army and lots of submarines.

A farmer by the name of Taylor and living about 20 miles south of Youngstown was fined \$20.00 and costs, about \$40.00 in all, for stealing poultry from E. A. Forkner, of Chinook.

By a score of one to a cipher Youngstown hockey team won from Chinook on Youngstown ice on Tuesday afternoon. Quite a number went up from here to witness the game.

"My shoes hurt," said a little fellow at school the other day. "No wonder," replied his teacher, "you have them on the wrong feet." "These are the only feet I have," replied the kid.

Ernest Britton sends word that he has arrived in England after quite a pleasant trip. It is currently rumored that on his return to this country, Ernie will be accompanied by one of England's fair ones.

The home of Mr. and Mrs. C. W. Rideout was on Monday evening the scene of a very enjoyable gathering of friends and neighbors. The occasion being the celebration of the wedding anniversary of the host and hostess. Games and other amusements were indulged in and everyone felt greatly indebted to Mr. and Mrs. Rideout for their entertainment.

NEVER COOK UP COLD MEAT WITHOUT IT

## Canada's Needs

## No. 2—Agricultural Prosperity

Concluding the first article in this series in which the greatest need of Canada, in order that it may become the nation intended it should be, was declared to be adequate population, the view was expressed that, first and foremost, it should be definitely ascertained why so many people left the country; in a word, why Canada failed to hold the people who immigrated to the Dominion, and even failed to hold its own native born.

The fault should be clearly established, and, in the opinion of the writer, it is not far to seek. It is, we believe, to be found in the fact that, despite Canada's enormous area of fertile agricultural land, the wonderful productivity of its soil, and the virility of its climate and people, the business of farming is not a paying one, with the inevitable consequence that agriculture languishes and thousands of people who engage in it give up after years of struggle, while other thousands go on from year to year without making any material advance and become wholly disheartened.

As long as such a condition continues, and millions of acres of arable land remain unsettled and unproductive, all industry in Canada will suffer, our railways will continue to be operated at a loss or be forced to impose such heavy rates upon the commerce of the country as to constitute another and serious obstacle to settlement, development and the business of the Dominion.

All observant men must admit that there is something radically wrong when the second largest grain crop ever raised in the Prairie Provinces, that is so far as quantity is concerned, proved to be, not a debt-producing crop but a debt-producing crop. The hundreds of millions of bushels of grain grown and harvested in 1921 should have given a great impetus to business in Canada, should have paid off millions of debt contracted in the previous poorer years, and should have started many people on the road to prosperity. But, alas, taken as a whole the crop of 1921 cost the farmers more to produce it than they realized from its sale. And this disheartening experience of the grain grower was duplicated in the case of the livestock producers.

Under conditions such as these it is quite futile, and a waste of time, energy and money to endeavor to secure thousands of new settlers to come to Canada and engage in agricultural production. Conditions confronting and governing agriculture in Canada must first be righted.

There will always be years in which adverse weather conditions occur, years when plagues of grasshoppers, or rust, or some other pest will prevail to a certain extent, but every farmer is prepared for these. These things alone did not bring thousands of Western farmers face to face with disaster and ruin this year. Despite such drawbacks, and notwithstanding the high costs incurred in connection with the raising and harvesting and marketing of the 1921 crop, there would have been a profit had anything like a price comparable with the costs of production been obtainable. But just as soon as the crop began to move the bottom fell out of the market and the grain had to be sold, if sold at all, at a price less than the costs of production and transportation.

That's the situation in a nutshell, and the result is that not only the Western farmers, and the West generally where prosperity depends upon the success of the farmers, but the whole industrial world in Canada is suffering. Business in the East as well as in the West is in the doldrums, is vitally, seriously, affected.

Agriculturists, we repeat, expect to face the vagaries and cope with the vicissitudes of nature, but as individuals they cannot combat such a combination of circumstances as confronted them during 1921 and will confront them again unless Canada wakes up as a nation and grapples with what is our outstanding national problem. A solution must be found, and found speedily, if Canada is to grow and prosper.

Canada can only live and prosper by developing a large and profitable export trade. The chief exports of this Dominion are, and for many years must continue to be, the natural products of its farms, its mines, its forests, and its fisheries. World markets for these products must be found and developed. The fiscal policy of this Dominion should be so framed as to encourage such a development.

A home market for factory products is of no value if the home people have not the money wherewith to purchase the manufactured goods, and the great mass of Canadian consumers cannot have money if the products of Canada's farms do not command a price in excess of the cost of producing grain and livestock.

Thickly populated countries may be self-contained, with an industrial-urban population sufficiently large to consume all that the agricultural rural population can raise, and vice versa, but not so in a country like Canada with an enormous undeveloped area of arable land and other natural resources and a sparse population thinly spread out in a line three or four thousand miles long. Canada must produce more from its land than its own people can consume, and a profitable market must be had for the surplus in order that the whole country may prosper.

## Professor Says Sea Is Shrinking

Attributed to Collection of Ice at South Pole

Our oceans are shrinking. This change, asserts a professor of Harvard University, is quite independent of local rises and falls caused by the warping of the earth's crust.

## FACE WAS FULL OF PIMPLES

For Three Years, Hard and Awfully Sore, Disfigured. Cuticura Heals.

"I had been suffering with a pimply face for three years. My face was full of pimples and was hard and awfully sore. They festered and dried up, and were soiled, and disfigured my face. They caused me to lose a lot of sleep, and were awfully itchy, making me scratch and irritate my face."

"I started to use Cuticura Soap and Ointment and I used two cakes of Cuticura Soap and two boxes of Cuticura Ointment. My face was healed." (Signed) Clifford Yeomans, East Chesham, N. S.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Agents: The Canadian Drug Company, Limited, 21, Peel St., Montreal.

Large Cuticura Soap Boxes without cost.

On the other hand, there are many places round our coast line where the sea is stealing land, says Answers.

"There is an old saying on the east coast: Gorleston was born, and Gorleston will be born."

Gorleston and Yarmouth are on opposite banks of the Yare. North of Yare, Yarmouth is situated on low land, and the sea is gradually creeping inland. The Scrobby sands in front of Yarmouth are now completely covered by the sea, although they were recently exposed to view—a rare event nowadays.

South of Yare, Gorleston is protected by cliffs, and, as if afraid of them, the sea is retreating. But the American professor does not take any account of local changes like these, and there are hundreds of them. He claims that the general sea level all over the world is twenty feet lower than it has been, and this he attributes to an increase in the collection of ice at the South Pole.

Coldest Place in U.S. Havre, Mont., is said to be the coldest place in the United States. Its winter temperatures are lower than the winter temperatures of Alaska. At Point Barrow, the northernmost point of Alaska, the lowest recorded temperature is 54 degrees below zero, temperature below 60 degrees.

While Havre not infrequently records

## Wireless Beacons May Replace Lighthouses

Chief Advantage Is Usefulness in Any Kind of Weather

Admiralty experiments with what are known as wireless beacons naturally give rise to the question, "Are our lighthouses doomed?"

Important experiments have been conducted in the neighborhood of the Lizard, Cornwall, and are believed to have met with success.

If the principle of the wireless beacon is accepted by Trinity House it will, of course, be an untold boon to our coastwise shipping. The number of wrecks will be reduced, but at the same time there will be an end to the romance of the lighthouse and the lighthouse keeper, and novelists will have to seek inspiration for their sea stories elsewhere.

The chief advantage of the wireless beacon is that in any weather, by day or night, in fog or blizzard, it can be picked up by a ship fitted with wireless as easily as a lighthouse in clear weather. The operator in his cabin will be able to tell his captain exactly where he is without getting in touch with big land stations and without delay.

## WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Williams' Pink Pills. This soothing medicine is a great friend to womanhood. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Williams' Pink Pills with great success. Thousands use no other medicine and rely solely upon Dr. Williams' Pink Pills to regulate the system and keep it in smooth running order. 25c all dealers or The Cataract Co., Montreal.

"Zyt" is the last word in the English language, according to the new Oxford dictionary.

The man who accomplishes things has learned to labor while he waits.

## THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired is not only the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved, but the first warning of a blood disease that impairs the patient becomes pale. She not only tires out easily but often suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Della Latronero, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and had backaches and headaches almost every day. I decided to give Dr. Williams' Pink Pills a trial, and by the time I had used three boxes I felt much better and I continued taking the pills until I felt as well as I ever did. For what they did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams Medicine Co., Brockville, Ont.

## Gift to British Foreign Office

Artist Has Worked Seven Years On New Frescoes

The new fresco at the Foreign Office, a gift from Sigismund Goetz, the eminent painter, was recently inspected by members of the Cabinet Council.

There are five large works, reaching from dado to ceiling, and three smaller subjects over the doorway. They treat of the origin, education, development, expansion and triumph of the British Empire.

Descriptive phrases above the main subjects indicate the scope of each:

"The seafarers claim Britain as their birthplace."

"She teaches her children the arts of peace."

"She teaches her sons the arts of war."

"Mistress of the seas, she sends her sons into distant lands."

"To the Motherland they offer aid and counsel; friends allied acclaim the righteous cause."

Mr. Goetz has been employed on the work for seven years. "It has been agreed that no call shall be made on public funds, not even for the fixing of the frescoes to the walls," said the artist to a press representative.

"I have accepted responsibility for the whole thing, and that is as well to explain in these days of unemployment."

Minard's Liniment For Garglet in Cows

**OUT OF 83**

Games ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid. They were cases where a person and sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, "being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

**Zam-Buk**

## Tea Frock of Chiffon And Crystal Bugles

By Marie Belmont

Crystal bugles effectively cover this frock of orange chiffon. The dress is simple in design, showing a straight wide panel dropping free in the back from shoulders to hem line.

The importance of little things in costume detail is here symbolized in the tiny band of silver which draws the neck line together in front. The silver note re-appears in the underborder which shows beneath the slit, and in the narrow silver girdle.

Silver bugles are stunning on a background of white, and this frock is very youthful and charming in white and silver.

Thirty thousand years was the total of the ages of 410 old people entertained at a dinner in London recently.

A man's brain attains its maximum weight at the age of 23 years.

## Nervous Breakdown COULDN'T SLEEP NIGHTS

"To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headache, a feeling of depression, dizziness, restlessness and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc."

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical weakness, do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

**MILBURN'S HEART AND NERVE PILLS**  
Mrs. M. Damand, Young's Cove Road, N.B., writes:—"I was bothered very much with my heart and nerves; flagging energy or physical weakness, could not sleep at nights, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

"Price, 60c a box at all dealers, or mail direct on receipt of price by The T. Milburn Co., Limited, Toronto Ont."

## "YOUR TEETH" CLEFT PALATE

By RRA PROCTOR MCGHEE, D.D.S., M.D., Editor of "Oral Hygiene"

The roof of the mouth is called the palate. There are two parts to it, the hard bony part surrounded by teeth, which is naturally called the hard palate, and the soft part that is so sensitive, at the back of the mouth, called the soft palate.

Some unfortunate children are born with a separation of the palata lingo-las. In these cases the nose and mouth open into each other.

It is very difficult to feed cleft palate children and if they do grow up, they have a lifetime of suffering and embarrassment. They cannot speak distinctly and have great difficulty with the fluids of the mouth and nose. Usually through the border of the upper lip.

Two methods are used to give relief to these children. One is to perform an operation, or rather a series of operations, to close the roof of the mouth and the opening in the lip.

The other way is to make a plate that will mechanically close the opening in the palate.

The nature of the deformity makes the wearing of this plate very unpleasant for the patient.

When a child is born with a hare-lip and cleft palate, the first thing to do is to get a cleft palate nursing nipple, because these children are so very hard to feed. Then have the palate closed as early as possible. If these children are successfully operated on before they learn to talk, the voice will be normal. If the cleft is left until the child becomes accustomed to the faulty use of the tongue that is necessary with the open palate, his speech will never be perfect.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Many do know, however, from experience how immeasurable is the relief provided by that preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Leads West in Honey Production Manitoba's honey production for 1921 amounted to 902,000 pounds, derived from 14,721 colonies of bees. This province now leads all other Western Canada in the production of honey, followed by British Columbia with 309,072 pounds.

## Killed By Blood Poison

Used an old razor for naring his foot, he became sick five days a bottle of Putnam's Corn Extractor which for fifty years has been removing corns and warts without pain. No failure if you use Putnam's. Because a substitute, 25c everywhere.

## Training Canadians To Speak

Value of Teaching the Youth How to Speak in Public

One of the most important projects undertaken in connection with public schools, high schools, universities and by professional instructors, is that of teaching the young Canadians how to speak in public.

Ideas and thoughts only have value in direct proportion to the extent to which they are spread.

The crusades would never have materialized had Peter the Hermit not inspired the Christian world with his fiery eloquence. Without his ability to talk, the capture of the Holy Land would have remained as a magnificent dream of Peter's brain.

People go to church and hear a sermon. If the minister is a trained speaker, his ideas are twice as effective as the ideas of the preacher with a halting tongue.

Upon the clarity of a school teacher's delivery depends the thoroughness with which pupils receive and digest new ideas.

Business men meet together to discuss business problems and new sales methods. The merchant who can clearly put his thoughts and convictions before his colleagues, elevates himself as a whole.

Organs of speech were given man to use. It is man's duty to bring them to as great a state of efficiency as his muscles, his brain or any other part of his body.—Vancouver Sun.

The War Horse

"General Bradack" wrote the small boy, "was killed in the late war. He had three horses shot under him, while the fourth went through his clothes."

Tunnel beneath the English Channel will be 21 miles long under the sea.

A theatre ticket stamp of Munich is said to have invented the lithograph process in 1790.

Minard's Liniment For Colds, Etc.

MISS FRANCES NEWMAN, Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Taniae did for me and there is nothing half good enough for me to say about it," said Miss Frances Newman, 2639 Hirsch, St., Chicago:

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had smothering spells and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Since taking Taniae I feel and look like a different person. I have a splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me I'm always smiling now and I certainly ought to be, for I'm enjoying life again."

Taniae is sold by leading druggists everywhere.

## To Extend Railway

Line North From Cochrane Will Open

The Ontario Government is calling for tenders to extend the Temiskaming and Northern Ontario Railway from Cochrane 70 miles toward James Bay. The cost is expected to be under \$3,000,000. This railway will open up one of the finest agricultural areas in the north country; the great timber areas and almost unlimited water power. It is estimated that at the Tin Can Portage, where the proposed extension will end, are water powers running to waste which would produce 300,000 horsepower.

It Will Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attacks. It causes the inflammation it will stop the cough because it always all irritation in the throat. Try it and prove it.

The first stockings were hand-knitted wrapped around the feet.

Light penetrates 3,000 feet below the level of the ocean.

The first real stove was constructed by an Englishman in 1521.

## STRENGTH AND HEALTH Red Blood, Vim, Vigor, Vitality Follow This Advice

Niagara Falls, Ont.—"As my parents have used Dr. Pierce's remedies for my heart and blood, I am in good luck to find a good word to boost the cause of 'Freedom from Illness.' I have used the Golden Medical Discovery at times for the past three years. Am a pressman by occupation and the labor is quite fatiguing and injurious to the system. But today business has no drawback for me. Three cheers for Dr. Pierce's Discovery!"—William H. Dempsey, Jr., 32 Bridge St.

As soon as you begin to take this "Discovery" you begin to feel its bracing, appetizing effect. Buy of your neighborhood drug store in tablets and liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeport, Conn., for trial pkg. tablets and write for free medical advice.

## AFTER GRIP

Colds, Fevers or a Run-down Condition. Take This Advice Pleasantville, N. H.—Four years ago I was a very sick woman. The doctor said it was pneumonia. It kept me in bed for five weeks and left me so weak that I could hardly get about. A dear friend advised me to try Dr. Pierce's remedies and I did so. After taking a bottle of the Golden Medical Discovery and one of the Favorite Prescription I found I was getting so much better that I had continued using them, together with Dr. Pierce's Pleasant Pellets, until I fully recovered my strength."—Mrs. Anna Brunell.

W. N. U. 1402

## Submarine Warfare Against Merchant Ships Will Be Abolished

Washington.—The five great naval powers of the world have decreed as between themselves, abolishment of submarine warfare against merchant ships. To purge the seas forever of this hidden menace to peaceful folk and ships, the world is asked to subscribe to the decree of a new principle of international law.

As adopted by the naval committee of the arms conference, the resolution proposed by Elihu Root, and amended by Arthur J. Balfour, to become immediately effective between the five signatory powers, runs in part as follows:

"One—The signatory powers desiring to make more effective the rules adopted by civilized nations for the protection of the lives of neutrals and non-combatants at sea in time of war, declare that among these rules the following are to be deemed an established part of international law:

"1.—A merchant vessel must be ordered to submit to visit and search to determine character before it can be seized.

"2.—A merchant vessel must not be attacked unless it refused to submit to visit and search after warning, or to proceed as directed after seizure.

"A merchant vessel must not be destroyed unless the crew and passengers have been first placed in safety.

"Two—Belligerent submarines are not under any circumstances exempt from the universal rules above stated and if a submarine cannot capture a merchant vessel in conformity with these rules, the existing law of nations requires it to desist from attack and from seizure and the permitting of the merchant vessels to proceed unharmed.

"The signatory powers invite all other civilized powers to express their assent to the foregoing statement of established law so that there may be a clear public understanding throughout the world of the standards of conduct by which the public opinion of the world is to pass judgment upon future belligerents.

### Big Drop In Sugar

Toronto.—The new year started auspiciously with a drop in the price of sugar. The reduction amounts to 50 cents per cwt. The wholesale price on best granulated, delivered Toronto, is now quoted at \$7.24. In the first week of January last year, the price was \$10.71 per cwt.

### Mother of Author Dies

Oakland, Cal.—Mrs. Flora London, mother of the late Jack London, the writer, died at a hospital near here where she had been under treatment for several weeks. She was 79 years old.

## Text Of Provisions Of Alternative Scheme Advanced By De Valera

Dublin.—Following is the text of the most important provisions of Mr. De Valera's alternative proposal:

Status of Ireland.—That the legislative executive and judicial authority of Ireland shall be derived solely from the people of Ireland.

Terms of Association.—That for the purpose of common concern Ireland shall be associated with the states of the British Commonwealth, namely, the Kingdom of Great Britain, the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand and the Union of South Africa.

That when acting as an associate, the rights, status and privileges of Ireland shall in no respect be less than those enjoyed by any other component state of the British Commonwealth; that the matters of common concern shall include defense, peace, war, political treaties and all matters now treated as of common concern among the states of the British Commonwealth and that in these matters there shall be between Ireland and the states of the British Commonwealth such concerted action founded on consultation as the several governments may determine.

That in virtue of this association of Ireland with the states of the British Commonwealth the citizens of Ireland in any of these states shall not be subject to any disabilities which a citizen of one of the component states of the British Commonwealth would not

### Settle Shantung Case

New York.—A cable message from Wu Tung Fang, one time Chinese minister to the United States, saying the Peking Government had finally accepted the Japanese terms for the settlement of the Shantung controversy concerning the loans from Tokio, was made public by Dr. Au So, Canton Government representative in this country.

### Transfer of Resources Will Be Asked

Resolution to Be Brought Before Governments of Prairie Provinces

Winnipeg.—Resolutions calling upon the Federal Government to make immediate transfer of natural resources to the three prairie provinces, will be brought before Manitoba, Saskatchewan and Alberta legislatures for ratification when they convene early this year, Premier Herbert Greenfield of Alberta said in an interview here.

Premier Greenfield said the western governments did not contemplate going to Ottawa at present as a delegation to demand placing the natural resources under provincial control, but, following the meeting of the various legislatures and passage of the resolutions, it is probable the three governments will ask Premier King for transfer of resources. The Western Canada Colonization Association has withdrawn its request for legislation providing for listing of all farm lands, Premier Greenfield said. Other arrangements are being made by the association for colonization of western lands.

### Will Pay Quarterly Dividends

Merchants Bank Shareholders Will Be Paid February 1

Montreal.—The shareholders of the Merchants Bank are to receive a 1½ per cent. dividend on their stock for the current quarter. It will be paid February 1 to shareholders of record January 4. This is about equal to what shareholders will receive quarterly on their stock when it is changed for Bank of Montreal stock on the proposed two-for-one basis.

### Crimes Officer Attacked

Cairo, Egypt.—Badraddin Bey, controller of the Egyptian Government crimes department, narrowly escaped assassination at the hands of a youth believed to be a student. The controller was seriously wounded by a revolver shot. He returned the fire and pursued his assailant, but the latter escaped.

## Devastating Fire In British Coast Town

Mile of Fire Caused Five Million Dollars Damage

West Hartlepool, Eng.—Scores of houses had been laid waste, 2,000 people rendered homeless and more than £1,000,000 damage done by a fire which broke out in the timber yard here.

The fire was the most devastating ever known on the northeast coast. It recalled in its effects the scenes after the German bombardment of West Hartlepool in 1914. The track of the fire ran more than a mile, chiefly along the main road from Hartlepool to West Hartlepool and the gate sent showers of flaming debris from the timber yards which ignited a large crenate tank and huge stacks of railway sleepers, which successively caught fire, despite the desperate efforts of the firemen who had been brought on special trains from Newcastle, Leeds, Darlington and a half dozen other points in the vicinity. Scores of tenement houses in the area are destroyed. There were only a few minor casualties.

## Contestants Train For Dog Derby

Seventeen Teams Are Entered For Race at The Pas

The Pas, Man.—Contestants for the fifth dog derby here have commenced active training and from now to the date of the race, Feb. 28, the teams will be worked for runs of 50 miles daily. The list of entries on hand indicates that this race will be contested by the largest number of teams that ever competed in a major dog race. Seventeen teams averaging eleven dogs each make up the entry list so far, which include three Alaskan entries.

The ruling favorites are Pranteau, McKay, Morgan and Hancock, four experienced Derby races, A new competitor from whom much is expected is Jack Sinclair, whose team is made up of 15 Norway House huskies. They are big rangy animals and it will be their first experience at derby racing. Miss Lottie Bagshaw, daughter of the local postmaster and local, selected carnival queen for the event.

## Toronto Has Woman Police Magistrate

New Official Was Decorated By King

Toronto.—Dr. Margaret Patterson has been appointed woman police magistrate for Toronto at a salary of \$3,500 per annum.

The new magistrate was born in South Perth, Ont., and graduated in medicine from Northwestern University, Chicago in 1899. She was decorated by King Edward VII, for distinguished service in organizing the national resources of India against the bubonic plague.

## Direct Wireless to Australia

Sent From England Distance of Twelve Thousand Miles

Sydney, New South Wales.—The first direct wireless message sent to Australia from England was published December 3 in the Sun. It was sent from the wireless station at Carnarvon, England, a distance of about 12,000 miles.

It was picked almost simultaneously by the powerful wireless stations at Perth, Western Australia, and Melbourne, Victoria, and thence retransmitted to Sydney.

## WESTERN EDITORS

Russell Hogg, Publisher of the News, Oak Lake, Man.

## Says Canada Does Not Need Titles

Toronto Paper Is Against Proposed Restoration of Honors

Toronto.—Under the caption "A Privileged Proposal," a Toronto newspaper says:

"It is reported from Ottawa that French Liberals will make a strong fight for the restoration of knight-hoods and similar honors in Canada. It is strange that such a notion should occur to the minds of public men at a time when so many serious problems demand solution, the tariff, the railways, unemployment and immigration.

"No worthy cause will be advanced by ministering to the vanity of a few socially ambitious men and women.

"The name of Shakespeare or Dickens would not shine any more brightly if it were prefixed by Sir or Lord.

"In England, such titles are the natural growth of the social set and their roots are struck in history and tradition. In Canada, we have neither the tradition nor the social environment. A title out here is as much out of harmony with our surroundings as a coconut tree."

## Lowest Insurance Paid

Toronto.—According to steamship underwriters, the navigation season just closed on the Great Lakes will go down as a record from the standpoint of insurance paid for losses. It is many years since the losses were so small, notwithstanding the fact that the navigation season was the long on record.

## B.C. Seed for Great Britain

New Westminster, B.C.—Fifteen hundred pounds of Douglas fir seed and 1,500 pounds of sitka spruce seed, the first shipment of British Columbia forest seed for the reforestation scheme in Great Britain, has just been made from the government's seed extraction plant here.

## To Reduce U.S. Forces

Washington.—A bill proposing to reduce the personnel of the army, commissioned and enlisted included, to 75,000, and of the navy to 50,000, was introduced by Senator King, Democrat, Utah.

## No Decision Yet

Ottawa.—It was stated in the highest official circles here that the Liberal Government had not yet discussed the proposal to bury a Canadian unknown soldier in the main entrance of the new parliament buildings.

## Discuss Important Western Matters At Conference In Winnipeg

### Popularity Of Prince

London.—The Prince of Wales, speaking at a dinner in Rangoon, according to a Reuter cable, said that nowhere during his three empire tours had he received a warmer welcome than in Rangoon. The extent to which the Prince has captivated the warm-hearted Burmese has been strikingly demonstrated on every possible occasion. During a garden party at Government House he received one prolonged ovation. Also while motoring to a dance at the gymkhana, along a route ablaze with Chinese lanterns, the Prince was greeted with an unbroken roar of cheering in striking refutation of the popular belief that an Oriental crowd was never demonstrative.

### Gold Rush Continues

Hundreds of Claims Staked at Elbow Lake

The Pas.—The rush to Elbow Lake gold camp, 75 miles south of here, continues and nearly 500 claims have been staked out. Many prospectors have gone in, and in the last week 11 two-hour freight trains and approximately 50 dog trains left here with supplies. The Hollinger Company, of Toronto, has taken an option on Murray claims, and a gang of 25 men who will start immediate development of the property.

A number of claims near the original Murray discovery which had been overlooked owing to heavy timber surrounding it, have been found by G. R. Bancroft, and he has accepted an offer of \$75,000 from a Toronto syndicate for his holdings.

## Severe Storms In Great Britain

Heavy Snowfalls In North Have Blocked Railway Lines

London.—Severe weather is being experienced throughout the United Kingdom. Heavy snowfalls in the highlands are reported and in the eastern counties the railway trains are blocked by snow. Fierce storms are sweeping over the English Channel. Gales on the Yorkshire coast have endangered lives as well as vessels, and lifeboat crews have performed splendid feats in preventing drownings.

In addition to the storms in this country, influenza is disturbingly prevalent at present.

## Writ For Kent Bye-Election

New Minister of Labor Will Be Liberal Candidate

Ottawa.—The writ for the bye-election in the constituency of Kent, Ont., made vacant by the elevation of A. B. McColly to the Senate, was issued by Col. O. M. Biggar, chief electoral officer, January 15 will be nomination day and the election will be held February 2.

J. A. Walker, K.C., Chatham, Ont., has been appointed returning officer. Hon. James Murdock, minister of labor, will contest the riding.

Winnipeg.—Joint action by Manitoba, Saskatchewan and Alberta, to bring about substantial reductions in freight rates, a reduction in the tariff, transfer of natural resources to control the western provinces and the adoption of similar immigration policies was approved by representatives of the prairie provinces in conference here. The present at the conference included Premier Morris of Manitoba; Premier Greenfield, of Alberta; Hon. J. H. Brown, Saskatchewan; Hon. C. A. Dunning, Saskatchewan, and members of the Manitoba cabinet.

The deliberations of the conference, according to the official statement, were in the nature of an exchange of views on matters of mutual interest to the three provinces and the trend of the discussions had in view the improvement of conditions of these provinces, particularly from an agricultural standpoint.

In view of the fact that the actions advocated will require to be considered and dealt with by each of the legislatures shortly to convene no definite decisions were arrived at pending action by the respective provincial parliaments.

There was general agreement on the main points of the subjects discussed, the statement continues, particularly that every effort should be exerted to bring about substantial reductions in the freight rates, a reduction in the tariff and transfer of the natural resources to the western provinces.

The sentiment of the conference favored joint action, and close cooperation on the part of the prairie provinces with respect to these issues, and the conclusions arrived at will be submitted to the respective legislatures for full consideration, the official statement says.

## Dominion Lands Reserved

South of Main Line C.P.R. in Saskatchewan and Alberta

Montreal.—All Dominion lands south of the main line of the Canadian Pacific Railway in Saskatchewan and Alberta have been reserved from homestead or soldier grant, entry, sale or grazing lease, pending the settlement of the land settlement policy of the government. The reservation of this effect has been received at the local branch of the Dominion Land Office from the Department of the Interior at Ottawa.

## Influx Of Workers Alarms Port Arthur

Announced Opening of Shipyard Draws Many Unemployed

Port William.—As a result of the announcement that the car works at Port William and the shipyard at Port Arthur would re-open this month, men from all over the Dominion are coming to the head of the lakes. One man even paid his last cent to come from Vancouver, only to find that there was no work to be obtained as the works have not yet opened and there is ample surplus of labor in the two towns when they commence operations.

Civil officials are becoming alarmed at the prospect of a big influx of unemployed from outside, with the certainty that most of the new comers will become a public charge.

Alberta Exhibits at Seattle

Seattle, Wash.—The Washington State Poultry Association's midwinter show opened here with stock entered from the northwestern states, British Columbia and Alberta. The most distant shipment is that of Charles Elbert's White Wyandottes from Edmonton.

## Panama Has Record

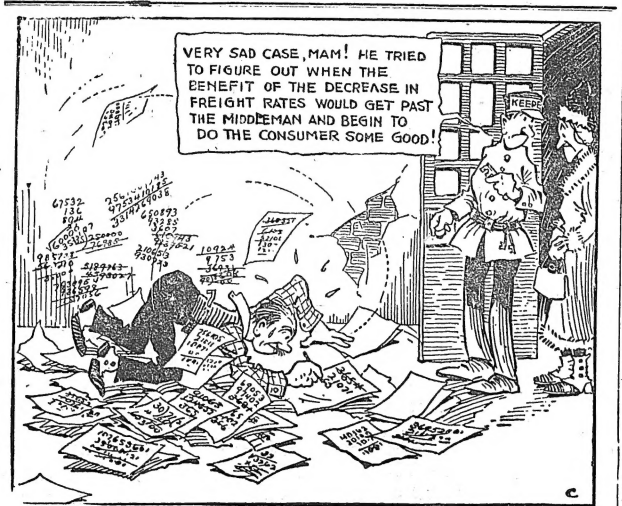

Panama.—In spite of the world-wide business depression the volume of shipping traffic through the Panama Canal in 1921 set a new record. The tolls for the calendar year were \$10, 325,713 approximately \$30,000 more than the previous year, according to the official report.

## To Join Expedition

Sherbrooke.—Dr. A. W. Wakefield, of Lake Megantic, Que., will be a member of the British Mount Everest expedition. The doctor has received an urgent request by cable to join the expedition and has accepted the invitation.

## C.P.R. Shops Re-open

Montreal.—Closed down for a holiday since about the middle of December the Canadian Pacific Railway Angus shops have re-opened here with the usual complement of men. There will be a working week of four days.

**Sounding Creek Council**

At the last meeting of the municipal council of Sounding Creek the first reading was given Bylaw No. 22 which provides for the securing of a gravel pit near the north road from Youngtown. It was decided to recommend to the provincial government that all municipal secretaries be made official auditors.

The annual meeting will be held in the Rex theatre, at Youngtown, on February 20th, and elections on 27th.

Farmers are looking for a well driller once in a while, but he is looking for them all the time. If you don't see him drop him a line at the Chinook postoffice.—Mike Smith.

## Western Grain Shipments From Pacific Port Reaching Unlooked For Dimensions

After years of controversy, with on the one hand ingrained conviction that Canadian grain would never leave from the Pacific coast, and on the other a sanguine assurance that ultimately this would come to pass, Vancouver is coming into its own as a port of outlet for part of the crop of the prairie provinces. Though the first shipment was made only last year, developments since that time, and the volume of grain in prospect for export from the Pacific, leave no doubt as to the future status of Vancouver as a grain shipping port for the product of the prairies.

The movement of the first big shipment of Canadian wheat to Europe by way of the Pacific was watched with considerable interest, and attention from many quarters was directed to its reception at the English port. There was general apprehension that the grain would suffer passing through the tropical region of the Panama zone, but, when unloaded in England, grain experts stated that grain had never been received there in better condition. Pacific coast export grain breathed easily and saw a wonderful future opened up for the Pacific coast in sharing with the east the business of carrying the grain product of the west to Europe. Other shipments followed immediately upon the first, and by the end of the season sixteen thousand tons of grain, mostly wheat, had left Vancouver for Europe via the Panama Canal.

This year shipments from the Pacific coast to Europe began just as soon as the movement of the threshed crops from the prairies got under way and the export business has been busy since that time. Grain dealers at the coast estimate that during the present season, approximately ten times as much grain will pass through Vancouver for Europe as last season. This will amount, according to estimate, to at least 150,000 tons. There will be, it is considered, about forty cargoes.

Another departure in the export of grain this year has been the shipment of sacked wheat from Vancouver to Japan. Hitherto Japan has been contented with the softer grains of the United States, but that the Canadian product is now held in high favor is evidenced in the extensive demand. November consignments to the Orient from the Pacific coast port totalling seven thousand tons.

The success of initial export shipments of Canadian grain from Vancouver to all parts of the world leaves no shadow of doubt as to the great future of this port, lying so convenient to the western granaries, as an outlet for a portion of their annual crop, and the success of shipment through the Panama Canal to Europe is fraught with significance to the Dominion grain export movement. Every year a certain amount of congestion occurs with the enormous product of the prairie provinces flooding the terminal elevators and export shipping points at the same time. The heavy increases in annual production which will probably cover the greater portion in the future, will tax the eastern ports of outlet to a yet greater extent and the success of Vancouver shipments will considerably augment the importance of the British Columbia port.

### Increase In Wheat Shipped Down Lakes

Movement of All Grains Greater Than In 1920

Movement of freight through the Canadian and United States locks at Sault Ste. Marie in the 1921 navigation season that closed December 24, aggregated 45,259,254 short tons. It was announced by the United States engineer's office. The figures compare with 39,282,496 short tons in 1920.

Movement of wheat down the lakes was 19,715,010 bushels, an increase of 64,238,523 bushels as compared with last year's. Grain other than wheat aggregated 1,591,264 bushels, exceeding that of 1920 by 44,064,004 bushels.

Girl to Cross Niagara on Tight Rope  
Blondin's famous feat of walking across Niagara Falls on a tight rope, is to be attempted by an English girl, next June. This girl, seventeen years old, calling herself Mlle. Eleonora, is giving a tight rope performance at the Crystal Palace circus, London. Her father says the rope over the great falls will be planting, and that the girl will cross the falls and come back.

The sea cucumber is an animal, not a plant, and is eaten by inhabitants of Eastern Asia.

In Iceland, codfish are dried and ground into a flour for use in bread.

### Holland's Unique Industry

Country Has Market for Seaweed Harvested Every Year

That every year there is a harvest of seaweed is a fact which is not generally known.

This industry is carried on in Holland. The seaweed is mown with scythes, when the tops almost reach the surface of the water. The harvesters, clothed in watertight garments reaching to the shoulders, work when the tide is low.

When this industry began, only one scythe was used at a time, but now several are fixed to a line which the workers draw to and fro in a sawlike manner above the base of the weed.

After the weed has been cut it is spread out in order that it may be withered by the sun. When it becomes black it is soaked in water. The feather the water the blacker the seaweed turns, and the blacker the weed, the higher becomes its value.

After being soaked for a few days, the product is spread out in the fields to dry, and when thoroughly crisp it is made up into bales weighing about one hundred pounds each. It is then ready for the market.

Seaweed has lately been found to produce gelatine of a very high quality.

### A Treasured Tree

Has Borne Oranges Continuously For Eight Years

An orange tree that has borne fruit continuously for eight years is the treasured possession of some horticulturists in Florida.

The tree, which is guarded day and night, shows no signs of ceasing in its phenomenal production of fruit.

At first it was thought to be an isolated freak of Nature, but it is now the opinion of experts that it represents a new species, and experiments are being carried out with a view to establishing large groves of such trees.

### Livestock in Saskatchewan

Value Placed by Provincial Government at Over Two Millions

The value of livestock in Saskatchewan is placed by the Provincial Government at over \$2,250,000, and the total number of animals is given as 2,755,130. This includes 948,229 horses and mules; 1,234,062 cattle; 291,000 sheep and goats. Incidentally, the government claims that this province is now, and has been for some time, the leading horse breeding province in the Dominion. There has been a decrease in the cattle and swine figures, but the government points to the great field for sheep on the prairies.

### Magnificent Donation By Indian Prince

Sends \$2,000 to Fund for Princess Mary's Wedding Gift

A magnificent donation to a fund which one of the London Journals is raising for a wedding gift to Princess Mary has been made from India by the Maharajah Gakwar of Baroda. The Maharajah's (or is it the Gakwar's?) gift is the sum of \$2,000. His Highness is one of the most loyal, as well as the richest, of India's ruling princes, and he made magnificent gifts to help the British during the war. The particular wedding gift to which he has contributed is to be devoted to the benefit of two children's hospitals in which the Princess takes a keen interest.

According to Scripture  
"Daddy, dear, cock's going to leave," said the minister's daughter, "and I simply can't think how we'll ever get another."

"Dear, dear! That seems a pity. Couldn't you—er—well?"  
"Oh, it's no use. She's not honest, so I've told her to go."

The minister brooded over his succinct output.

"Scripture asserts, my dear," said he, "that if a man takes away thy coat, let him have the cloak also."

"Exactly!" replied the clergyman's daughter. "I found her stealing potatoes, so I've given her the sack."

Motor Fatalities High  
Nine thousand one hundred and three persons were killed in the United States by automobiles and other motor vehicles, except motorcycles, during 1920, the Census Bureau announced. This represents a death rate of 104 per 100,000 in population, which is 1 per cent. higher than the motor vehicle fatality rate in 1919.

It is almost as easy to worry as it is to tell others not to.

### Honor Anniversary Of Wolfe's Birthday

Members Present Representing Regiments Associated With Historic Campaign

At the annual dinner in honor of the birthday of Gen. Wolfe, hero of the Plains of Abraham, held recently at Westernham, Eng., Wolfe's birthplace, the guest of the evening was the Marquis of Billo, who claims to be a direct descendant of the officer who carried the colors and supported General Wolfe when he received his fatal wound on the battlefield.

There were a number present representing regiments associated with Wolfe's campaign or claiming connection with his fellow officers. Lieut.-Gen. Sir Edward Hutton gave the toast of the evening which was drunk in silence. A cablegram of greeting was sent to the mayor of Quebec.

### Big Shipment of Silver Foxes

Valuable Animals Shipped From Prince Edward Island to States

One of the largest shipments of pedigreed silver-black foxes to leave Prince Edward Island was shipped recently, and consisted of three hundred animals destined for the United States including points in the State of New York, Colorado, Wisconsin and Washington. These valuable animals were shipped by express, occupying two express cars and were accompanied by a qualified caretaker carrying pedigree certificates, veterinary health certificates, consular invoices, and exportation permits. The demand for high grade Prince Edward Island silver foxes for breeding purposes is increasing rapidly from year to year.

### Change Name of Waterloo

Belgians Decide Historic Place Shall Be Known as London

Possibly as a concession to French susceptibilities, the Belgians have decided to alter the name of Waterloo. Henceforth the hamlet which gave its name to the immortal battle will be known as London. Visitors to the battlefields will have more need than ever of guides to show them where British Gueards formed the famous squares against which Napoleon's cuirassiers hurled themselves in vain. The mill of St. Helens will be known as "Hallen," while other well-known spots will also be re-named.

### To Train Leaders

Manitoba University Students Will Hear Lectures On Community

One hundred students have already registered for the course of leadership to be held in the University of Manitoba from January 22nd to February 3rd, under the joint auspices of the United Farmers of Manitoba, the Manitoba Agricultural College and the Manitoba University. The purpose is to train leaders for community service. A wide and varied course of lectures has been arranged, which will be delivered by specialists during the session.

### Mixed Farming in West

Agriculturists Will Find It Greatly Increases Their Income

Commenting upon the enterprise of agriculturists of Western Canada in sending exhibits to the International Livestock Exposition at Chicago, the New York Herald, in a recent issue, said: "Western Canada is encouraging diversified farming in a way certain to bring an increased flow of dollars into the pockets of agriculturists, who at one time devoted their energies exclusively to the raising of grain crops."

### Promoting Reindeer Industry

Extensive plans for promoting the reindeer industry have been put into operation by the Hudson's Bay Company in an endeavor to make productive the vast stretches of the North land. Over six hundred reindeer have been recently shipped from Norway to Baffin Island. Accompanying these animals were Lapland herders with their families, reindeer sleighs, sleds and all the equipment necessary to launch the industry properly.

### Women and Tree Planting

The women of the prairie provinces have energetically taken up the subject of tree planting, which is one of the reasons for the steady development of this work. Aside from the cash returns which shelter-belts give on prairie farms they add much to the appearance and comfort of the home and this side appeals especially to the housewives.

Several modern suburbs are being built about Rome. Old forts are vanishing and giving way to homes the like of which have not been seen before in that part of Italy.

The first sewing machine on official record was made by Thomas Saint, an Englishman, in 1750.

### Great Gulf Stream

Starts In Tropics, Changes Climate And Ends In Ice Floes

A river 3,000 times as large as the Hudson! It is the Gulf Stream. This great stream starts in a tropic gulf, flows 10,000 miles, changes the climate and topography of many countries and ends in the ice-floes of an Arctic sea, says the Mentor Magazine.

The drift of strange woods and seeds on its surface caused Lieft Bruckman, the Norwegian, to seek land to the west, and discover America. But it was not recognized as a great current until years after Columbus' time, when a Spanish admiral, astounded by his rapid progress from America, reported to the king of Spain that he had travelled a great ocean highway.

Jonathan Franklin, when Postmaster of the United States, made the first definite chart of it. Ships from England sailing against it took longer to reach America than ships taking a more northerly course, and he wanted to know why.

Cape Hatteras is the stormiest point in the world because, of the Gulf Stream. Here the warm water of the tropic current is deflected into the Atlantic and it becomes a river hundreds of miles wide.

The British Isles and the Scandinavian countries are habitable because of the Gulf Stream. The western coast of Western and Central Europe has the volume and energy of the Gulf Stream and none affects so large a portion of the earth's surface.

### World Has Not Seen Last War

Premier Massey of New Zealand Warns Empire Against Absolute Unpreparedness

Premier Massey, of New Zealand, in his New Year's message, in emphasizing the importance of peace for assisting the process of reconstruction, declares that results of the greatest importance from the Washington conference are probable, and that if an amicable quadruple arrangement can be maintained it will be the best guarantee of the peace of the world ever known, says a despatch to the London Times from Wellington.

"No nation has more to gain by peace than the young British nations of the Pacific," the Premier's message continues, "but whatever agreement is reached between the present great powers, none of their representatives think the world has seen the last war."

He warns against the empire lapsing into absolute unpreparedness.

### Clean Seed For Grain

Practice Is First Step Toward a Successful Crop

There is no single farm operation so easily and cheaply done, which gives larger return, than the thorough cleaning and grading of all seed sown. Besides cleaning out the weed seeds, the light weight seeds are taken out when the job is properly done, thus preventing the reproduction of the poorer plants. This practice carried on year after year permits the increase of the best and kills out the poorest. Thorough cleaning and grading of all seeds planted in the first step toward a successful crop. There is no time like the present to put the seed in proper shape for planting.

### Colors in the Orient

To the Oriental mind the use of colors in combination convey a far deeper significance than the mere harmony or contrast in use. They convey a symbolic meaning, or a religious significance; they use certain colors in their references to sex and social position, etc., each color combination being appropriate to the occasion and use for which it is intended.

### Pity the Poor Muskrat

Poor little muskrat! It is as game as the beaver and as pretty as a squirrel, but humanity is its fate. Caught and skinned, its carcass is served as rabbit, or Belgian hare, though its meat is sweeter than either of these, and its hide is made up and sold as Hudson seal. Dead, skinned, but, humanity is its fate there is none to exalt its service to mankind.—Toledo Blade.

### Sermon to Her Doll

Four-year-old girl, her favorite doll, the loss of whose arm exposes the saddest:

"Oh, you dear, good, obedient doll! I know I told you to chew your food fine, but I had no idea you would chew it as fine as that."—London Post.

It has been found that a plant, if drugged with chloroform and made dormant, will, after it has recovered, begin to grow with normal speed.

A wine made of tomatoes and said to be superior to orange wine, was once popular in Florida.

As a rule, a man's credit is all right at the wrong time.

## Some Results Of The Search For Oil In The Mackenzie River District

### South African Goods for Germany

Market Opened Up As Result of Trade Negotiations

As a result of the visit of the South African officials, Messrs. Mentz, and Canham to Germany, it is expected that substantial markets will be opened up for South African products, especially in mohair and feathers. It is understood that there will be no difficulty in disposing of the whole South African wool clip by the ordinary trade channels.

A considerable proportion is finding its way to Germany where the demand is active.

With a view to facilitating the importation of feathers, Germany has removed the ban thereon subject to production of an importation license by the recognized manufacturers and dealers in feathers.

Following on conversations with Messrs. Mentz and Canham in Berlin, the Berlin wheat board is getting into direct communication with the farmers and co-operative associations of South Africa. It is anticipated that a considerable market for cereals will arise therefrom. Buxton, another South African official is remaining in Germany to assist in developing the connection.

### Green Feed Makes Eggs

Sprouted Oats Should Be Included in Rations For Hens

"Hereafter I have never been able to make any hens shell out the eggs during the fall and winter months," says G. V. Meyers, of Gardendale, Ind. "This season they are more than paid for board and lodgings. Green feed is the secret that produced the desired result and of all the green feeds I have tried, sprouted oats have proved the best."

"Of course, it requires grain and mash feeds to furnish materials for the hens to make the eggs from; but without successful green feed, I found such feeding was practically wasted as regards egg production and the fowls could not do their best. So, if anybody wants to have a good egg yield during the cold months, I would advise them not to omit sprouted oats from the rations. My birds are enjoying better health also as sickness is practically unknown. Sprouted oats furnish a very cheap feed and they contain ingredients very helpful to the hens in the production of eggs."

### The Tomb Of Lord Roberts

Inscription Completed and Unveiled Without Ceremony

The inscription above the tomb of Lord Roberts in the crypt of St. Paul's Cathedral was completed at the end of last week, and was unveiled without ceremony. The design consists of a cross of dark marble set in the wall, with the word "Roberts" cut into its base in letters of gold. Over the grave the British and Indian flags will be draped. A memorial tablet of last week, and was unveiled with a large number of prospectors, attracted to the district by the publicity resulting from the discovery of oil, and finding themselves unable to participate in its development, have spread to the north, east and west in search of minerals offering quicker returns. Already several promising discoveries have been reported and it is just possible that directly or indirectly the oil stampede may result in the opening up of one of the greatest mining areas of the North. Among these prospectors are found some of the most experienced men of the Klondike and other famous fields.

### World's Biggest Wagons

Trucks of Virginia Railway Carry Load of 100 Tons

Some new railway wagons have just been made in the United States on the Virginia Railway.

Empty they weigh 35 tons, and they can carry a load of 100 tons. They are the biggest trucks now used in the world.

Outside these trucks are 45 feet long and nine feet wide. The depth varies from four and a half to nine feet. The Virginia Railway has ordered a thousand of these wagons to be made.

### New Factory For Edmonton

Dairy Supplies, Limited, Will Manufacture Page Hand Milk

A new manufacturing plant is to be added to the factory of the Edmonton Dairy Supplies, Limited, which has announced its intention of erecting a factory for the manufacture of the Page Hand Milk. Construction is to be started immediately so as to have the plant in full operation by the spring. In addition to the milk-making machine, the company will manufacture a silo, as well as boxes and other dairy apparatus.

Vancouver Port Establishes Record  
With 28,000 bushels of wheat shipped out of government elevators, a record has been established for Vancouver port.

The government has handled one car of wheat this season up to date than it handled in the whole 1920-21 season. Practically all the wheat is leaving here by ship.

"The open season of 1921 in the Mackenzie River oil fields has come and gone," writes Mr. F. H. Killo, exploratory engineer of the Natural Resources Intelligence Branch of the Department of the Interior, who has spent the past two seasons in the Mackenzie district. With the cessation of activities that were pursued with feverish haste during the short summer months of continuous daylight, comes an opportunity to review the progress and development that has been accomplished, and to weigh the situation in the light of additional knowledge gained.

On the whole, in general terms, an atmosphere of disappointment is evident. To the casual observer the field has proved below par and therefore a failure. Such an verdict are to be expected—in fact they cannot be avoided. The tendency to over-estimate and over-promise was rampant last winter and spring could not fail to produce a reaction. Whether or not the field will ultimately prove fruitful, the facts that its location is far distant from markets and that systems of transportation will be difficult and expensive to establish, prohibit an immediate return from any capital invested.

The usual army of cheap adventurers that gather on such occasions has been eliminated, and only the seasoned veterans or recruits with sufficient training and financial backing remain. The action of the Canadian Government in framing new regulations that will insure the development, and not the "wildcatting" of this resource and in authorizing the Royal Canadian Mounted Police to refuse right of entry to parties without material means of combining the several elements and living conditions of the district, or of others of questionable intentions, though raising a storm of protest at the time, is proving effective.

It now becomes evident to the thinking man that the returns from this source, if any, will be slow in appearing. Just the act of prospecting and developing will not be spectacular. There is, however, no reason to feel disappointed. There is no more excuse for a reaction now than there was for a boom last spring. The fact is, there never was any justification for just the act of prospecting and developing will not be spectacular. There is, however, no reason to feel disappointed. There is no more excuse for a reaction now than there was for a boom last spring. The fact is, there never was any justification for just the act of prospecting and developing will not be spectacular. There is, however, no reason to feel disappointed. There is no more excuse for a reaction now than there was for a boom last spring. The fact is, there never was any justification for just the act of prospecting and developing will not be spectacular.

The summer has resulted in emphasizing the magnitude of the task of developing the oil resources, as already referred to, and the great possibilities, more within the reach of the man of limited capital, of discovering valuable deposits of placer gold, gold-bearing quartz and silver, lead, zinc, copper and iron ores. A large number of prospectors, attracted to the district by the publicity resulting from the discovery of oil, and finding themselves unable to participate in its development, have spread to the north, east and west in search of minerals offering quicker returns. Already several promising discoveries have been reported and it is just possible that directly or indirectly the oil stampede may result in the opening up of one of the greatest mining areas of the North. Among these prospectors are found some of the most experienced men of the Klondike and other famous fields.

### Champion Stallion Dead

"Paramount Flashwood" Considered Best Belgian Horse on American Continent

The death of the famous stallion, "Paramount Flashwood," owned by George Rupp, of Laramie, Stat., is a loss that will be regretted by horsemen throughout the province and Canada generally. He was a five-year-old, and as a three-year-old, he won the grand championship for the Belgian breed at Waterloo Park, Iowa, in 1918. He was looked upon as the best Belgian horse on the American continent. He was bred by the unbeaten champion "Marceur," who was sold at auction for \$47,500. When a three-year-old, \$31,500 was offered for "Flashwood," but his owner would not part with him.

### Company Will Open Mine

It is reported that the White Lake Collieries, Limited, which company owns 320 acres of coal lands between Penton and the town of Oliver, B.C. are to open a mine and start diamond drilling in the near future. The company has retained the services of a well-known mining engineer to supervise the opening of the mine.

A team of elephants will drag logs averaging as much as 1,600 board feet.

SLOAN'S RELIEVES  
NEURALGIC ACES

FOR forty years Sloan's Liniment has been the quickest relief for neuralgia, sciatica and rheumatism, tired muscles, lame backs, sprains and strains, aches and pains.

Keep Sloan's handy and apply freely, without rubbing, at the first twinge. It eases and brings comfort sure and ready. You'll find it clean and non-dyeing.

Sloan's Liniment is pain's enemy. Ask your neighbor.

At all druggists—35c, 70c, \$1.40.

**Sloan's Liniment** (Pain's enemy)

World Happenings  
Briefly Told

The wedding of Princess Mary to Viscount Lascelles has been set for February 28, according to the London Daily Mail.

A bottle containing data that had been drifting six years since cast overboard in Japan, was found near Portland, Ore.

A Birmingham, Ala., real estate company gives to every purchaser of a lot 20,000 feet of lumber with which to start a home.

Building permits in Moose Jaw for 1921 were \$500,177, as against \$1,533,995. The 1920 permits included one million for the C.P.R. station and of sea building.

An automobile that had upon its hood the figure of a diving girl, led to the arrest in Hull, Quebec, of Jos. Senecal and George Baker in connection with the death of Joseph Paquette, of Montebello.

Unless 100 border amateur radio operators apply for Dominion licenses, the Windsor, Ont., patrol of the Canadian Mounted Police has received orders to dismantle all their wireless equipment.

A Belgian passenger on the steamer Zealand, who had been deported from New York, jumped overboard at sea and was drowned, the steamer's officers reported on her arrival at Plymouth, Eng.

A bomb was exploded among the crowd listening to a band in the market place of Dinkelsbühl, Bavaria, on New Year's Eve, injuring 50 persons, 20 of them seriously. The thrower of the bomb, a youth, and several other persons, were arrested.

The wedding of Charles Phillips, London, had progressed to the point where the registrar asked the bridegroom's full name. Then it was learned Phillips had delegated his brother to take his place while he went to France on important business. The wedding was postponed.

The New Year's toll of casualties from poisonous liquor amounted to four dead and six dangerously ill in New York hospitals, with uncounted scores of cases of acute alcoholism and accidents attributed to holiday liquor. One case of alcoholic paralysis was reported.

The Austrian Government has permitted the fact to become known that the Vickers Armstrong Company, a British concern, has made an offer to purchase the great Woerlasteroff Arsenal, which it is proposed to convert into a plant for the manufacture of locomotives on orders received from the Balkan States.

## Profitable Mining

Cobalt District Produced \$200,000,000 Worth of Silver in 1921

According to statistics already gathered and estimates being prepared for 1921 it is evident that the value of silver produced up to the end of 1921 from Cobalt and the surrounding district, will reach an aggregate of close to \$200,000,000. Total dividends from the silver mines will exceed \$30,000,000, and with the treasures containing sulphur, which, combined with disbursements actually made, show a net profit of over 50 per cent of the gross yield. This is an achievement without parallel in the history of any other metal mining area.

For Hiccups and Heartburn  
Here Is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nerviline" in sweetened water. It cures the hiccups, just as it does sour risings, gas belching and fermentation in the stomach. For acute stomach pains, bloating, nausea and similar ills, rely on trusty old Nerviline—the true friend of every family. Sold by all Dealers, 50c per bottle.

## Growing Tobacco in Manitoba

Tobacco growing is the latest phase of agriculture introduced into Northern Manitoba. Messrs. Jacob and Guelin, two Belgians, who experimented with it this year, produced a tobacco said to be the equal to the Quebec product. They announce their intention of going into tobacco raising on a large scale next year.

## WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to study, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches cold which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Canada's First Hemp

The hemp crop for 1921—the first year that it has been cultivated extensively—will be large, according to a Winnipeg company, under whose direction farmers in the province seed and sow the hemp. Five hundred tons will be realized at Portage la Prairie.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

## Woolen Mill For Victoria

British Syndicate Will Specialize In Worsted Materials

A British syndicate proposes the establishment of a woolen mill in the city of Victoria. The company state that it is their intention to specialize in worsted materials of high quality, and carry through the entire process from cleaning and preparing the raw wool to the production of the finer grades of worsted suitings.

## Value of B.C. Minerals

An estimate based on official returns places the value of the mineral productions of British Columbia for 1921 at \$24,553,909.

## School Survey

A careful survey of the youth of Winnipeg between 14 and 18 years of age has just been completed by the Winnipeg School Board. The results show there are 10,708 boys and girls from 14 to 18 years of age in the city; the boys numbering 5,068 and the girls 5,652. The survey was undertaken to ascertain what proportion of the children completing studies in the public schools have proceeded to the secondary schools.

## Dyed Her Skirt To Make Child A Dress

Each package of "Diamond Dye" contains directions so simple any woman can dye, or that her own, faded things now. Even if she has never dyed before, she can get a new, rich color in half an hour. Dyes, washes, coats, stockings, sweaters, coverings, dresses, handkerchiefs, everything. Buy Diamond Dye—no other kind—then perfect home dyeing is guaranteed. Write for your druggist whether the material you wish to dye is wool or silk, whether it is linen, cotton, or mixed goods. Diamond Dye never streak, spot, fades, or runs.

Chill has opened an official pavilion to advance loans on reasonable terms to workmen.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extirminator.

By making your purchases from your home merchant you are contributing directly to the prosperity of the community in which you live.

## CATARRHAL DEAFNESS

It is greatly relieved by constitutional treatment. MALTZ'S CATARRHAL MILD CURE is a constitutional remedy. Catarrhal deafness is a disease of the mucous lining of the Eustachian tube. It is caused by inflammation of the mucous membrane of the middle ear, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced, your hearing will be destroyed forever. MALTZ'S CATARRHAL MILD CURE acts through the blood on the mucous membrane of the middle ear, thus reducing the inflammation and restoring normal conditions.

Regularly free. All Druggists.

F. J. Cheney & Co., Toledo, Ohio.

## Counting House Genius

An electrically-driven instrument is now made which moistens the gum on envelopes, turns down the flap, seals them up, then stamps them, counts them and turns them out ready for post—all at the rate of one hundred a minute.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powder, by destroying the worms, corrects these faults of the digestion and serve to restore the organs to healthy action.

## The Marvels Of Aluminum

When Alloyed With Other Metals Weight Practically Unchanged

Ever since aluminum was produced in a commercial form the greatest interest has been taken in its application to various engineering structures where lightness with strength is desirable. It was soon found that when aluminum was alloyed with other metals its strength was greatly increased without any great change in weight. Various alloys of aluminum have been used in the structure of airships and aeroplanes, and the results have been so promising that a special committee was formed in Great Britain to undertake systematic research of the properties of aluminum alloys. A report recently issued by this committee embodies the results of seven years of research conducted in the National Physical Laboratory, which is subsidized by the British Government. This research has resulted in the discovery of many alloys which are of great promise for practically all kinds of engineering, particularly motor car manufacture, railway rolling stock, internal combustion engines and steam engineering. The only problem awaiting solution is the production of these alloys on a commercial scale. Already a beginning has been made in this direction by a British Government factory; and British manufacturers are looking closely into the possibility of producing some of these wonderful substances for regular use in place of steel.

Minard's Liniment For Warts, Corns, Etc.

## Inexpensive Meats

By LORETTA C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

In the farmhouse, meats are considered a rare treat and the ingenious housekeeper has devised ways of serving these delicacies. If it is now possible for the city housewife to get meats, as the meat packers are sending them daily to the city meat markets.

Beef, pork or sheep melts may be used. The chefs in our best hotels, too, have discovered ways of serving them. Try some of these recipes:

## Braised Melts

Slice one pound of pork melts, cover with boiling water, let stand ten minutes, drain and wipe dry. Then, put into a stew pan one carrot, two onions, sliced, and a bouquet of herbs. Lay the melts on top of these with enough stock or boiling water to about cover. Simmer with the cover on for about one hour. Remove cover and put into the oven to brown. Dish up some mashed potatoes, put melts on the potatoes, strain the gravy and mix it well with a sharp sauce, pour it over and serve.

## Melts Venetienne

Slice and cover the melts with boiling water, drain and wipe dry. Cut the melts into small pieces and place in the frying pan in which about four tablespoons of butter has been melted. Add two onions sliced fine, a little chopped parsley and salt and pepper to taste. When the melts are browned and well done and the onions tender, squeeze the juice of a lemon over them and serve in a border of steamed rice.

Liver may be substituted for melts in any of the recipes.

The housewife often passes by the extolls at the meat shop, scarcely realizing their possibilities. Before proceeding to use these in any recipe they should be treated as follows:

Wash and soak them, cut in two inch pieces in cold water for one-half hour. Drain, cover with boiling water and cook for twenty minutes. Drain. They are now ready to be prepared in any manner desired.

Grilled oxtails are a "special" at one of our metropolitan restaurants, and are delicious. Prepare them as directed above and then place them in a saucepan. Add two cups of water and one onion. Steam until tender, then lift and drain. Place in a baking dish, season with salt, pepper and a little grated cheese and cook in a hot oven for about ten minutes. Serve with a curry or rice.

## Oxtail Pot Pie

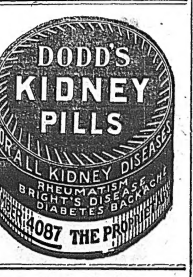

Prepare two oxtails as previously directed. Place in a deep saucepan and add one quart of boiling water, a bunch of soup herbs, one carrot cut in dice and one onion cut in quarters. Bring to a boil and cook slowly until tender. Put this in casserole and add one dozen very small par-boiled potatoes, four large onions cooked until tender with one cup of carrots. Mix the gravy with corn starch and season with salt and pepper. Strain over the tails and vegetables in the casserole. Then cover with pie crust and bake forty minutes in a hot oven.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Apples For Scotland  
An initial shipment of 770 boxes of apples has been sent from Grand Forks to Vancouver, for shipment direct to Glasgow, Scotland, by way of the Panama Canal.

## Minard's Liniment For Distemper

Prefers Horse to Auto Truck  
One of the largest department stores in Chicago, is reported to have recently offered for sale nineteen used auto trucks, and the same week placed an order for fifty heavy draft horses.

## Coal Mines Under Sea

Cumberland and Nova Scotia Have Workings Beneath Ocean

In England, the workings of the Cumberland coal field run two miles out under the sea. The ventilation of these mines is a nice engineering problem, but it is successfully accomplished. At Workington, England, in the year 1837, before the science of surveying was as highly developed as at present, the sea burst through and the workers were drowned. Some of Nova Scotia's coal mining is also done beneath the bed of the sea.

Windsor Castle is like a small town in itself, containing hundreds of inhabitants.

## MURINE Night and Morning

For Clean, Healthy Eyes. Itchy, Tired, Smart, Burnt, Itchy, Irritated, Inflamed or sore eyes. Granulated, use Murine often. Soothes, Refreshes, Safe for Infant or Adult. At all Druggists and Opticians. —The Eye Doctor, 1010 St. Louis St., St. Louis.

## "Cascarets" If Sick

Bilious, Headachy From the Bowels

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold. Are you keeping your bowels clean with Cascarets, or merely forcing a passage-way every few days with salts, cathartic pills or castor oil? Cascarets work while you sleep; cleanse the stomach of sour, fermenting food and foul gases; take the excess bile from liver and carry out of the system all the constipated poison in the bowels! A Cascarets physician will straighten you out by morning.

## Mother! Open

Child's Bowels With California Fig Syrup

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well-played child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teespoonful today saves a sick child tomorrow. Ask your druggists for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

## Do You Know

Bituminous sands 150 to 200 feet thick lie along the Athabasca river for 73 miles. Drawn out by the sun the tar runs into deep pools. Similar sands are found at intervals from Lat. 57 to beyond the Arctic Circle. The soaked area is possibly 10,000 square miles. This deposit represents the largest known occurrence of solid asphaltic material.

It is one thing for a man whose business or private requirements are served by a network of railway to discuss casually the importance of the Canadian National Railways, but to the farmer or dweller in the small towns, the development and success of Canada's railways is a matter of transcending importance.

Eighteen chartered banks have over 4,500 branches in Canada and others in the West Indies, South America and Europe. The Canadian banking system is an admirable one. All notes issued by banks must be secured, dollar for dollar, by gold or dominion notes.

The daily output of newspaper in a strip a yard wide would encircle the globe. Canada produces daily 2,525 tons of newspaper, besides 2,500 tons daily of treated pulps. This represents a daily cut of more than 6,000 acres.

There are 3,855 licensed grain elevators in Canada, with a total capacity of 231,213,620 bushels. The world's largest combination elevator at Port Arthur, Ont., has a capacity of nearly 10 million bushels.
